

# What is MyLiveBook?

MyLiveBook is an eBook delivery and viewing solution allowing you to access, read and annotate digital content - anytime, anywhere.

MyLiveBook has all the vital benefits of working on paper – notes and highlights plus the added benefits of a secure digital environment.

## Business benefits

### Secure

Your content is protected with our access and copy controls. Users may only access the content from a limited number of devices and locations at the same time

### Synchronised

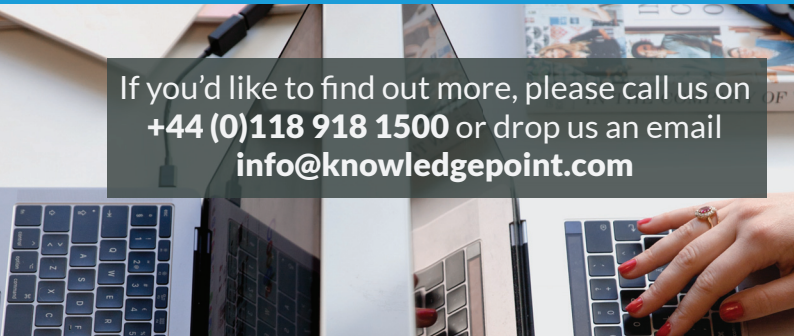

Content is always available and accessible. All notes taken are shared across the platform to all other access points

### Ordering

Redeem codes and access course material instantly, any time, any place, anywhere

### Environmental

Zero production wastage costs, low production energy and zero shipping costs all help to lower your carbon footprint

If you'd like to find out more, please call us on  
**+44 (0)118 918 1500** or drop us an email

## User benefits

### **Content on the go**

Download the MyLiveBook app to your Android or iOS devices and access it anytime with the offline reading feature.  
Access content in the classroom or on the move

### **Accessible from any device**

Access your courseware via web, iOS or Android from any device with internet access

### **Insert your own notes**

Tutor and user notes can be inserted into your workbook with ease so everything is stored centrally. Simply take a photo and click insert

### **Annotations are synced across platforms**

Content can be added, highlighted and typed directly onto the pages

### **Personalised annotations**

Colour code your notes makes it easy to refer back to your key learning points

### **Last page resume**

Allows you to pick up where you left off
